### **Vorwort**

Die Volksrechte der germanischen Teilstämme sind die bekanntesten Rechtsquellen des deutschen Frühmittelalters. Als solche verdienen sie eine besondere Erschließung durch umfassende Wörterverzeichnisse. Den Wörterverzeichnissen der *Concilia aevi merovingici*, der *Leges Langobardorum*, der *Lex Burgundionum*, der *Lex Saxonum*, der *Lex Thuringorum*, der *Lex Frisionum*, des *Pactus legis Salicae*, der *Lex Salica*, der *Lex Ribvaria*, der *Ewa Chamavorum* und der älteren (volkssprachigen) Gesetze der Angelsachsen sollen die alemannisch-bayerischen Volksrechte folgen.

Von diesen ist der *Lex Alamannorum* zugrundegelegt die Ausgabe *Leges Alamannorum* hg. v. Eckhardt, K. A., Bd. 1 1958, Bd. 2 1962 (Germanenrechte Neue Folge, Westgermanisches Recht.)

Die *Lex Alamannorum* ist durch 50 Handschriften des 8. bis 12. Jahrhunderts bezeugt, die eine merowingische und eine karolingische Fassung wiedergeben. Die Aufzeichnung der älteren Fassung wird in die Zeitspanne von 712 bis 725 gesetzt. Sie besteht aus mehr als 9000 Wörtern, die sich auf rund 1100 Stichwörter verteilen. Mit ihrer Indizierung ist ein weiteres Hilfsmittel zur Erforschung der frühmittelalterlichen Geschichte geschaffen.

Für die Mitarbeit bei der Erstellung bin ich meinen Gießener Mitarbeitern, insbesondere den stud. iur. Schellenberg, Koellner und Metzler sehr zu Dank verpflichtet

Um der modernen Technik Rechnung zu tragen, ist das Wörterverzeichnis durch Frau Bonnie Yen, der ich für ihren Einsatz sehr herzlich danke, gescannt und damit weltweit maschinell lesbar gemacht worden

Gießen, den 14. Juni 1979/Innsbruck, den 02. Oktober 2002
