**Vorwort**

Für die Erforschung historischer Quellen können Wörterverzeichnisse hilfreich sein. Deswegen sind bereits Indizes für die Concilia aevi merovingici und die Leges Langobardorum verfasst worden. Dem soll sich nunmehr ein Verzeichnis der Wörter der Volksrechte der Burgunden anschließen.

Die Lex Burgundionum ist in 14 (15) Handschriften überliefert und ist wahrscheinlich im Jahre 517 auf Grund einer älteren Sammlung König Gundobods vom Ende des 5. Jahrhunderts auf Veranlassung König Sigismunds überarbeitet worden. Von ihr wurde die Ausgabe: Leges Burgundionum ed. Ludovicus Rudolfus de Salis. MGH Leges nationum Germanicarum. Legum Sectio I Tomi II Pars I. 1892, S. 29-122 zugrundegelegt. Dabei wurden etwa 1700 Wörter mit rund 14000 Belegen erfasst.

Ermöglicht worden ist mir dieses Wörterverzeichnis durch die Unterstützung seitens meiner Mitarbeiter Dietrich Joswig, Heil, Loos, Schellenberg und Schenck von Schweinsberg.

Um der modernen Technik Rechnung zu tragen, ist das Wörterverzeichnis durch Frau Bonnie Yen, der ich für ihren Einsatz sehr herzlich danke, gescannt und damit weltweit maschinell lesbar gemacht worden.

Gießen, den 31. Januar 1978/Innsbruck, den 25. September 2002

Gerhard Köbler
